NABH Accreditation Readiness Training Program

An assessor-led online program covering all 10 chapters of the NABH hospital standards

PROGRAM PROPOSAL

Lead Trainer: Principal Assessor – NABH

Program at a glance

5

Episodes

10

NABH chapters
covered

4h 20m

Total learning time

100%

Online, on-demand

A practical, assessor-led program that takes hospital teams through every chapter of the NABH standards — what each standard expects, what assessors look for, and how to demonstrate compliance on the ground.

Designed for: hospital administrators, quality and accreditation teams, doctors, nurses and allied healthcare professionals preparing for NABH.

Program structure: five episodes

INTRODUCTION 20 min	EPISODE 1 60 min	EPISODE 2 60 min	EPISODE 3 60 min	EPISODE 4 60 min
Q&A NABH, its importance and the accreditation journey	AAC Access, Assessment & Continuity of Care COP Care of Patients	MOM Management of Medication PRE Patient Rights & Education	HIC Hospital Infection Control PSQ Patient Safety & Quality Improvement	ROM Responsibilities of Management FMS Facility Management & Safety HRM Human Resource Management IMS Information Management System

Chapter coverage (1–5)

AAC	Ch 1 · Access, Assessment & Continuity of Care	Registration and admission, initial assessment and reassessment, laboratory and imaging quality and safety, transfers, discharge.
COP	Ch 2 · Care of Patients	Uniform care, emergency and ambulance services, ICU/HDU, surgery and anaesthesia, transfusion, obstetric, paediatric and end-of-life care.
MOM	Ch 3 · Management of Medication	Hospital formulary, safe storage, prescribing, dispensing and administration, high-risk drugs, implants and consumables.
PRE	Ch 4 · Patient Rights & Education	Patient and family rights, informed consent, education, feedback and complaint redressal, information on costs.
HIC	Ch 5 · Hospital Infection Control	Infection prevention programme and resources, HAI prevention, surveillance, sterilisation and staff protection.

Chapter coverage (6–10)

PSQ	Ch 6 • Patient Safety & Quality Improvement	Structured patient-safety programme, key quality indicators, QI tools, incident reporting and analysis.
ROM	Ch 7 • Responsibilities of Management	Governance roles, ethical leadership, risk management and professionalism in hospital functioning.
FMS	Ch 8 • Facility Management & Safety	Safe and secure environment, utilities, medical equipment, fire and non-fire emergencies, medical gases.
HRM	Ch 9 • Human Resource Management	HR planning, recruitment, induction and training, appraisal, grievance handling, credentialing and privileging.
IMS	Ch 10 • Information Management System	Data and information control, complete and accurate medical records, retention and medical record review.

Methodology and delivery

Practical, not theoretical

Every topic is explained through real hospital practice, so learners can apply it directly while preparing for NABH.

Online and on-demand

Prerecorded sessions hosted on the client's learning platform; learners study at their own pace.

Client-reviewed content

Presentations are prepared before recording and shared with the client for review and sign-off.

Tailored introduction

The introductory Q&A episode can be built around questions provided by the client.

Deliverables and certification

Recorded episodes

One 20-minute introduction and four 60-minute episodes, ready to host on the client's platform.

MCQ assessment

Multiple-choice questions to check understanding across the NABH chapters covered.

Joint certification

Co-branded certificate issued by the client and cliniminds to all participants, signed by the lead trainer.

Lead trainer

Principal Assessor – NABH

20+

years in hospital
practice and
administration

2007

leading healthcare
quality and governance
since

- **2021–23** **Head of Quality (JCI, CAP)**
- **2017–21** **Medical Superintendent & Head, Quality**
- **2017** **Deputy Medical Superintendent**
- **2012–17** **Resident and Administrator**
AIIMS, New Delhi
- **2007–11** **Clinical Care Coordinator**
Indraprastha Apollo Hospital, New Delhi
- **2000–07** **Medical Officer**
Kamineni Institute of Medical Sciences and Sai Krishna
Hospital, Hyderabad

Qualifications and expertise

Education and certifications
