

Dear Colleagues & Friends,

I am pleased to announce that Cliniminds this year again has been awarded as the Best Clinical Research Institute in India. We were pitching against all our major competitors again this year. This Award is an important token of appreciation for our commitment towards developing superior human resources for the clinical research industry, and providing excellent education and employment opportunities to our students.

Award was presented by **Hon'ble Dr. Shashi Tharoor**, Member of Parliament, Former Minister of State for External Affairs, Government of India, and United Nations Under-Secretary General to our Managing Director, **Mr. Kamal Shahani**.

Please join me in congratulating **Mr. Kamal Shahani** and entire Team Cliniminds for this achievement and hope to receive many more accolades and recognition for the work we are doing for the society.

I would be shortly sending you the Award certificate which you may get it framed and display prominently at the Centre.

Best regards,

Jaagriti Bhardwaj
National Manager – Business Development
